

**Saskatchewan Unit
Council for
Exceptional
Children**

May 5, 2017

Registration 8:30 Workshop 9-3:30 (lunch included)

STF Building, 2317 Arlington Ave., Saskatoon

Child Development and Evidence-based Interventions

This workshop will focus on child development and the protective factors that help to foster healthy development in children:

- ◆ how to assess using practical formal and informal methods,
- ◆ various aspects of development including cognitive, social, behavioural, and social skills
- ◆ various simple, evidence-based tools and strategies to intervene in the primary areas of development.

Mary Newton

Mary Newton has worked with individuals with disabilities for over 10 years and specializes in behaviour assessment and intervention. She is a Consultant with the Cognitive Disability Strategy and a Behaviour Support Specialist with the Prairie Spirit School Division. Mary has degrees in Psychology and Rehabilitation Science, a certificate in Advanced Autism Spectrum Disorder (ASD) Intervention Training as well as training on the Assessment and Analysis of Severe and Challenging Behavior from the Institute for Applied Behavior Analysis.

Brendan Newton

Brendan Newton is a teacher and registered psychologist with experience teaching in both elementary and high schools. He is a Coordinator of Student Services with the Greater Saskatoon Catholic School Division and owner of Newton Educational and Psychological Services, a private agency specializing in the assessment of children and adults. Brendan has degrees in Psychology, Education as well as School and Counselling Psychology.
