STUDENTS WITH LD: COGNITIVE PROFILE, ASSESSMENT & TOOLS

Learning disabilities can result from an underlying deficit in one or more cognitive processes.

- Learn how registered psychologists use assessments to identify students' cognitive profiles, diagnose, and recommend treatment for students with learning disabilities
- Students with learning disabilities often experience greater success when they can use their abilities (strengths) to work around their disabilities (challenges).
- Learn how assistive technology can address many types of learning difficulties including: listening, math, organization, memory, reading, and writing.

Your presenters...

→ *Leslie Widdfield-Konkin, M.Ed., Registered Psychologist*

→ *Nicole Gonari, M.Sc., CCC-SLP,*

Speech-Language Pathologist/Assistive Technology Consultant
